“ *Dear Adina and Family:*

I just learned of your departure and my heart is very sad. You were my friend in the distance, we shared our mental health licensing process going to Nova and taking courses but also sharing our friendship doing other things together. I was willing to see you during my visit to Fort Lauderdale and sadly I found out that you are no longer here..

You had a fecund life helping so many people and touching others with your love and tenderness. May God keep you in Him and I will truly miss you!

I just learned today and my heart aches. We were therapists together and you were always warm, tender and kind. I will miss you. My thoughts and condolences to your family in that you were a gem and your memory will warm our hearts.
