“ *Dr. Gerald Beyers was a long time and close friend of my dad Sal. I loved hearing stories of their shared life experiences. He was my dentist in my later adult years, and I always, and still do, marveled at the true dentistry he performed, well into his eighties! He was a remarkable person - I loved listening to his stories and I witnessed him do chin-ups in his 80s!! I think of him often, and missed him when he retired and moved to Florida! I will always remember Dr. Beyers with great fondness. Tina*
