“ *My best memory was coming over from the UK to visit I was about 12 my sister was maybe 7/8 and my cousin was 9 ish and we was all around your mum and dads house and the whole time we was there your dad would only talk to us kids in a Donald Ducks voice :) we thought it was the best thing ever and we laughed soo much. That is my best and fondest memory of him and that will stick with me forever. Even walking around the little place they lived and others around he still did it. Didn't have a care in the world if it made him look silly. We loved it. Such a lovely man. Will truly be missed. Xxx*
