“ One of my favorite people from my childhood. She was an amazing school counselor and helped me make it through elementary school. I never forgot her and never will. I hope she knows how many kids she helped.

“ From our days at HHS through probably the next 25 years Sandy was a favorite of mine probably closest to her when she was with Gary , I loved her outspokenness and never at a loss to tell it like it is. Time has separated us all but traits like loyalty and friendship transcend all of our lives . She leaves much too soon and condolences to her loved ones today

“ I am glad I spoke with Sandy only a couple of weeks before she finally found eternal relief from pain. I loved her sense of humor and thank her for all the good memories. Please save us a seat at the last "reunion" dinner table. Until we meet again, rest in peace Sandy. Bill McIver

“ I was a high school class mate with memories of Sandy as a gregarious, happy, kind person. I last saw her briefly on our Hialeah High reunion cruise two years ago. Even though she was sick and in the ships infirmary she kept her smile and spirits high. Our class mates waived our final good-bye as she was transported off the ship. So glad I got to see her. My condolences to her family. Beverly Calvert Boggs

Bev Boggs said it well! We were with Sandy on that trip as well; she was "One Tuff Cookie" and that's the way we'll remember her! Bob Tafel

Sandy and I grew up only a few blocks from each other , in Opa-locka. We oftentimes " hung " with the same crowd during those formative years. At HHS , we were classmates and casual pals , frequently sharing a joke and a laugh together in the high school halls. During our many Class Reunions , she most often was one of the most enthusiastic , hardworking , and gregarious attendees. Nancy and I were very saddened to learn of her passing and mourn her loss with her loved ones. Our , now , long ago happy days and joyful experiences with Sandy assure us that her's was a life well-lived.

“ Our hearts weep at our loss of Sandy. She fought her many health issues courageously. I first met her in 1977 at North Miami Adult Ed. When I taught Transactional Analysis 101. We had fun and become lifelong friends. Sandy told it like it was, had a great sense of humor and loved to travel. We miss her. Condolences to the family.
