“ After 3 years of us dating we stopped in a jewelers store before getting back on our cruise ship in Fallsmouth jamaica. To my surprise he got down on one knee and proposed to me. He then proceeded after agreeing to get up and hold me while holding the ring on the air where I had to quietly tell him that it was supposed to go on my finger. Oops. That was my guy. Goody and silly and funny. Always good for a laugh. Didn't always do the right thing but his intentions were always with the purest heart.
